David Guetta:

"I've been using harmonic mixing for many years, but I had to find the keys with a keyboard. **Mixed In Key** is as good, in less time."

Pete Tong:

"**Mixed In Key** has proven to be a valuable and creative tool for both radio and club programming. I'm hooked!"

NEXT

Above & Beyond:

"Historically, we've always keyed everything by ear, but **Mixed In Key** is a great alternative if you're on the road or not near a keyboard."

Paul Oakenfold:

"Mixed In Key is a unique DJ tool that makes harmonic mixing easy. It's perfect for professional DJs."

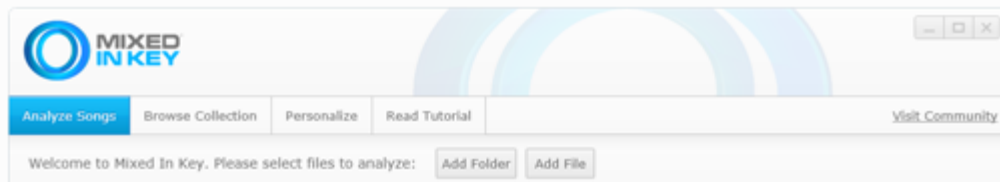

Sebastian Ingrosso:

"**Mixed In Key** saves so much time, and I love the folders. Version 5 is seriously good."

How-To Guide for Harmonic Mixing

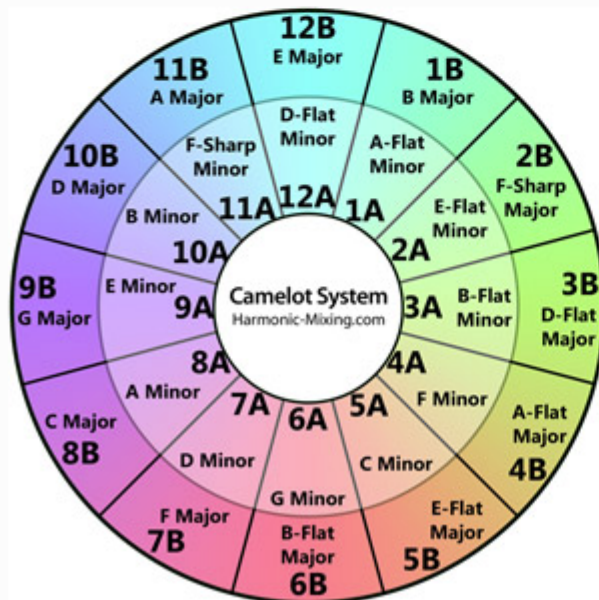

Mixing harmonically enables you to create smooth transitions between songs and ensure that your vocals, melodies, and basslines sound great together.

Harmonic mixing opens a new realm of creativity. You can create unusual mash-ups (The Beatles vs. Jay-Z), or just enjoy flawless mixing with the latest tracks from your favorite producers.

To use harmonic mixing, you need to know the key of every song you play. Mixed In Key software scans your entire music collection and displays key results in our easy-to-use Camelot notation (ex: 4A, 6B).

Use the Camelot Easymix Wheel

The Camelot notation makes harmonic mixing easy. Here is a picture of the Camelot Easymix Wheel:

Out of interest, would the controls on skins work on a touch screen?

Posted Mon 07 May 12 @ 11:03 am

yes, there is even a special slider skin element so when you press an area of the knob it jumps to that position... There are a handfull of skins optimised for touchscreens already, however the current version of VDJ doesn't support dual or multitouch... but there is also the iremote app for ipad and iphone that can be used to control your laptop.

PETE TONG

"After spending many years experimenting with software and laptops in the DJ booth I have finally found what I'm looking for... Traktor combines the most essential studio effects with the all-

important flexibility to adapt to an artist's needs. When playing with Traktor you still retain the hands on DJ feel and most importantly it sounds incredible."

FELIX DA HOUSECAT

"Thee beautiful thing about Traktor is the beatgridding and loop functions, it allows me 2 take thee muzik and remix songs on the fly, which creates a more original set for me trackwise rather than

sounding like everyone else, it also give me great ideas on the production front of things, I felt I was being limited before, and thee future and way forward was Traktor."
